Summer Varieties

GRAVESTONE—Large, deep red and orange, best flavored.
RED GRAVESTONE—Bright red, juicy flesh, excellent flavor, good shipper and desirable as a Commercial sort.
WHITE ASTRACHAN — Fruit large; skin greenish white. Flesh rather coarse and acid.
OLDENBURG—Large, striped red and yellow, bears young.
RED ASTRACHAN—Large, deep crimson, rich acid flavor.
RED JUNE—Medium, red, ripens early.
YELLOW TRANSPARENT—Medium, pale yellow, the best early apple.
RED DUCHESS—Combines all qualities of the Duchess of Oldenburg, with double, red color. Very desirable for road stand marketing.
EARLY HARVEST—Round, medium yellow apple, early, tender and juicy.
GOLDEN SWEET—Large yellow, early sweet apple, good bearer.

Fall Varieties

FAMELSE (or Snow)—Red on sunnyside, white flesh.
GRIMES GOLDEN—Rich golden yellow, excellent eating and cooking.
JONATHAN—Brilliant red, juicy, well flavored and good bearer.
KING—Large, striped red, good cooking, productive.
ORTLEY—Sometimes called white bellflower, fine flavored.
RHODE ISLAND GREENING—Large, yellow green, good eating and cooking.
WEALTHY—Medium, red, early bearing and hardy.
YELLOW BELLFLOWER—Large, pale yellow, oblong.
FALL PIPPIN—Very large yellow apple, fine cooker and excellent to eat.

Winter Varieties

ARKANSAS BLACK—Medium, dark maroon, firm, keeps well.
BALDWIN—Large round, deep bright red, juicy and crisp.
BLACK ROMIE—A dark "ruby red" colored Rome Beauty; a real money maker; finer texture and finer flavor than Rome Beauty.
BLACK TWIG—Resembles Winesap.
BLACK WINESAP—A new, solid, dark red Winesap; commercial.
BRIGHT RED ROMIE—A magnificent "double red" Rome Beauty; very early bearer, excellent shipper; a sure cropper.
CORTLAND—New, from N. Y. Station; beautiful large red apple, late keeper and wonderful shipper.
DELICIOUS—Brilliant red, wonderfully flavored, large and juicy.
DOUBLE RED STAYMEN—New, solid red Staymen Winesap; shipper and roadside apple; immense.
MONTOSH RED—Red, hardy and productive, keeps well.
NORTHERN SPY—Large, striped red, excellent eating apple.
RED DELICIOUS—Large brilliant red, flavored sweet, lightly touched with acid. Flesh fine grained, crisp and juicy. Wonderful for side, preferred for eating. Good keeping qualities.
RED ROMIE BEAUTY—Large red, excellent shipper.
RED SPY—New, from N. Y. Exp. Station; typical Spy except in color; solid bright red; very hardy and productive.
ROMIE BEAUTY—Large, yellow, shaded red, ships well.
SPITZENBERG—Large, striped red, rich and juicy.
STAYMAN WINESAP—Yellow, striped red, firm, rich.
TALMAN SWEET—Medium, tinged red, firm and sweet.
WHITE WINTER PEARMAN—Excellent all around variety, good keeper.

APPLES—Continued
WAXEN—Large round yellow fruit, excellent for jelly.
WAGNER—Early bearer, fine grained, keeps well.
WINESAP—Medium, yellow streaked with red.
WINTER BANANA—Large, pale yellow, good for desserts.
YELLOW NEWTON—Wonderful keeper, firm and juicy.
KING—Very large, yellowish shaded red.
JONATHAN—Medium, light yellow, covered with red stripes.
YELLOW DELICIOUS—A wonderful apple; an early bearer of beautiful yellow apples; good shipper.
RAILEY SWEET—Large, dark red, striped in yellow; ripens in October; best of winter keeping sweet apples.
WEALTHY—A high quality striped red and yellow dessert apple; bears very young; very prolific.
STRAWBERRY—A delicious red apple; wonderful for home use.
BEN DAVIS—A fine late keeping winter apple, good appearance, and good bearer.

Crab Apples

(Prices Same as Apples)
DISLOP—September to October. Fruit medium, yellow with shadings crimson maroon; flesh firm, fine yellow, astringent; bears abundantly. Ornamental. One of the most desirable sorts for culinary purposes.
RED SIBERIAN—An inch in diameter; clusters; bears young and abundantly. August to September.
ASCENDENT—September. Fruit medium to large; color brownish-yellow with bluish of carmine; flesh firm and crisp, yellowish, fine grained, very juicy, acid.
WHITNEY — August. Fruit large; yellow, striped with red and covered with red on sunny side; flesh yellow, very juicy and fine grained; flavor rich and almost sweet.
YELLOW SIBERIAN—Medium, round, golden-yellow. Vigorous grower. September.

Quinces

ORANGE—Large golden; excellent flavor.
CHAMPION—Very large, bright yellow.
PINEAPPLE—Flavor is suggestive of pineapple; fruit resembles Orange quince; making superior jelly; can be eaten raw, has most delicious flavor, not equaled by any other quince.

4-6 ft.	55c	50c	55c
Heavy two year	75c	65c	55c

Five trees at 10 rate; 50 at 100 rate.

Cherries

In planting a Cherry orchard care should be taken not to plant trees too close together, select a dry soil for the Cherry, as a rule, although it is so hardy a tree that it will thrive in a great variety of soil, yet a good sandy, or gravelly loam is best. Use same care in planting as other trees.
Orchardists are resorting more and more to the planting of varieties of Cherries that are strong pollinizers. Experience seems to demonstrate that such varieties as Black Oregon, Black Tartarian, Black Republican, and Centennial are the best varieties to use for this purpose. Usually about one in every nine trees has proven to be the right proportion to use of these pollinizers.
Summer Varieties
GRAVESTONE—Large, deep red and orange, best flavored.
RED GRAVESTONE—Bright red, juicy flesh, excellent flavor, good shipper and desirable as a Commercial sort.
WHITE ASTRACHAN — Fruit large; skin greenish white. Flesh rather coarse and acid.
OLDENBURG—Large, striped red and yellow, bears young.
RED ASTRACHAN—Large, deep crimson, rich acid flavor.
RED JUNE—Medium, red, ripens early.
YELLOW TRANSPARENT—Medium, pale yellow, the best early apple.
RED DUCHESS—Combines all qualities of the Duchess of Oldenburg, with double, red color. Very desirable for road stand marketing.
EARLY HARVEST—Round, medium yellow apple, early, tender and juicy.
GOLDEN SWEET—Large yellow, early sweet apple, good bearer.
Special Note to Commercial Planters: Our cherry trees are grown from heaviest consistent producing orchards in Wasco County, Oregon. Pollinizers offered are taken from same Proven Blocks of Royal Ann, Bing, and Lamhart.

PRICE OF CHERRIES ON MAZZARD ROOT

5 at 10 rate; 50 at 100 rate; 300 at 1000 rate.				
	Each	10	100	1000
2 to 3 ft.	30c	25c	22½c	20c
3 to 4 ft.	40c	35c	27½c	25c
4 to 6 ft.	45c	40c	32½c	30c

Commercial Sorts: Bing, Lamhart, and Royal Ann, Burbank, and Chapman.
Pollinizers: Black Tartarian, Black Republican, Centennial, Abundance, Waterhouse, and Bing Oregon.

NEW CHERRY INTRODUCTIONS OF MERIT: Special price, 4-6 ft. 60c each; 10 @ 50c

SENECA—2 weeks earlier than Tartarian. Purple Black, rich and good shipper.
LYONS—For early market and roadside, hardly prolific, profitable.
ROYAL DUKE—Follows Late Duke—fine for market and roadside.
GOLD CHERRY—An amazing new sweet cherry as hardy as any sour cherry sort. An early summer Gold Cherry. Wonderful for pre-serving and Maraschino.
Special Note to Commercial Orchardists: Many beautiful cherry orchards at 6 to 8 years old, quickly commence to die back and carry a lot of unhealthily wood structure, finally dying out completely. Avoid this terrible loss of time and money by buying your commercial cherry orchard from reliable nurseryman. We offer the very finest of stock grown from certified bud selected sorts direct from the very finest cherry orchards in the west in The Dalles section, Wasco County, Oregon. We grow our cherry trees on whole roots of true mazzard stock. Many inferior cherry trees are offered annually by unreliable nurseryman. Buy only the best. Ours will stand the test of time.

Sweet Varieties

BING—Almost as large again as the Black Republican; flesh very soft, flavor of the highest quality; tree thrifty, upright grower, very hardy and productive; a fine shipper and market variety. First of July.
BLACK OREGON — Excellent black cherry, good pollinizer for Bing, ships well, closely resembles the Bing.
RUBIRANK—An exceptional early black cherry, ripens in early June, reaching markets that are hungry for ripe, luscious cherries and brings good prices.
SENECA—Large, purple black fruit. Does not crack in rain. A new variety introduced from New York Experiment Station. Ripens two weeks earlier than Tartarian.
BLACK REPUBLICAN—Fruit dark color; rich, solid and an excellent keeper. Middle of July. Pollenizer.
BLACK TARTARIAN—Very large, purplish black, half tender; flavor mild and pleasant. Tree vigorous, immense bearer. Ripen last of June. Pollenizer.
CENTENNIAL — Very much like the Royal Ann in shape and color. As large, sweet and good. Ripens a few days later. Pollenizer.
DEACON—Similar to Black Tartarian in color and size, superior in texture and shipping qualities. One of the most satisfactory for pollinizing.
LAMBERT—Size very large; form roundish, heart-shaped; stem long, slender, stature of medium depth, wider surface smooth, glossy, rounded purple red, with numerous minute, indented russet dots; flesh dark purplish red with whitish veins, meaty and of fine texture; semi-cling, small seed; flavor sweet or very mild sub-acid, aromatic, rich. Quality very good and an excellent shipper.
ROYAL ANN (Napoleon) — Fruit large; very dark color, very rich, solid, excellent keeper. Middle of July.

Duke and Morello Cherries

	On Mazzard Root			
	Each	10	100	1000
2 to 3 ft.	30c	25c	22½c	15c

Go over our list very carefully. Note our Amazing Offers on Fruits, Nuts, Berries, Grapes & Choice Roses

It is with great pride and satisfaction that we offer commercial planters, orchardists, home owners, and fruit stand operators the most complete selection in the West, of high quality, thrifty, hardy nursery stock, grown from the finest certified, bud selected fruit on the Pacific slope and from the newest certified proven sorts offered by the New York Experiment Station at Geneva.

MAKE YOUR SELECTIONS FROM OUR COMPLETE SALES LIST TODAY AND SAVE

The Broadest Guarantee Ever Made . . .

We guarantee every plant, tree, or shrub that we ship out to be free from disease, true-to-name, and to arrive in perfect growing condition. If for any reason whatever, you are not satisfied that you have received 100 cents in value for every dollar sent us, we will refund your money or adjust it to your complete satisfaction. Our policy of "Every Customer a Satisfied Customer" means all that it implies, and we are here to give absolute satisfaction.

Dependability
THE CARLTON NURSERY COMPANY OF CARLTON, OREGON, have for the past 45 years been engaged in the growing and shipping of HIGHEST GRADE NURSERY STOCK, to all sections of the country. **DEPENDABILITY** in trees is not measured by Price; however this list contains Values heretofore not found offered by Reliable Nurserymen. **OUR STOCK IS PRICED TO MEET PRESENT CONDITIONS. SUCCESS IN FRUIT AND NUT TREE PLANTING depends solely on the selection of CERTIFIED BUDS from Trees producing quality as well as quantity and to have been budded on the proper variety of Root systems adaptable to various soil conditions. WE ACCEPT THIS RESPONSIBILITY.**
OUR STOCK IS CULTIVATED, NOT IRRIGATED. The deep, rich sandy loam of our TUCALINT VALLEY NURSERIES enable us to supply strong, hardy, vigorous trees, with highly developed Root Systems.
We have thousands of satisfied customers and solicit inquiries from new customers and **COMMERCIAL PLANTERS.** We assure you that your order will receive our careful personal service and attention. Submit your order today. **EXTRA HEAVY SELECT TREES IN ANY SORT, 3c ADDITIONAL.**

Prunes

PRICE ON PRUNES AND PLUMS

5 at 10 rate; 50 at 100 rate; 300 at 1000 rate.				
	Each	10	100	1000
3 to 4 ft.	30c	27c	22½c	19c
4 to 6 ft.	35c	30c	26½c	22½c
6 to 8 ft.	40c	35c	30c	26½c

Standard Commercial Drying Sorts: Italian, Petite, Coates 1418, Date, Improved French, Noble, Burton, Silver, and Imperial.
For Commercial Shippers of Prunes: We offer Early Italian, 2 weeks ahead of Italian. This is a proven profitable sort. Add 10c per tree.
The Budwood for our prune trees is selected from the finest and best strains on the Pacific Slope.
COATES 1418; DATE PRUNE; IMPROVED FRENCH PRUNE—Sweeter, larger than French; fine for drying. Reddish purple, juicy.
HUNGARIAN—Largest size, beautiful bright red, one of the best for marketing; not good for drying. September.
ITALIAN (Fellenberg)—Medium to large size, oval, dark purple; flesh juicy, sweet and delicious; a standard drying and shipping variety. September.
SILVER PRUNE—Large size and sweet; a good dryer; ripens rather late for northern climates. October.
FRENCH or PETITE—Extensively used for drying, because of its fine texture and sweetness. Reddish purple, sweet and juicy. Fruit medium size.
FRENCH IMPROVED — August-September. Drying; leading prune in California, and unexcelled in quality. Fruit medium size, slightly necked; dark blue; skin tender; flesh of fine texture, rich and sugary. Tree vigorous and very productive.
BURTON—A new prune which is one of the largest and finest drying prunes. Rich violet-purple in color, with golden yellow flesh and small pit. A consistent and regular bearer. September.
IMPERIAL EPINEUSE (Imperial)—August-September. Drying, shipping and home orchard. One of the largest prunes. Fruit of excellent quality, either fresh or dried.

ROSE DE SEIGNEUR—August-September. Used principally for drying. Fruit of medium size, oval, very dark purple. Flesh greenish yellow, sweet, with rich pleasant flavor. Requires cross pollination.
STANDARD—August. Drying and canning. Fruit large, dark purple; flesh amber, fine grained, juicy and sweet. Freestone. Requires cross pollination.
SUGAR—Early August. Drying and fresh shipping. The earliest prune. Fruit medium to large, oval, dark purple. Flesh sweet, and of medium quality. A good pollinizer.
PRICE OF PLUMS—Same as Prunes
New Shipping Plum of Merit: Giant Satsuma. Each 60c.
Best Cannery Sorts: Reine Claude, Green Gage, Imperial Gage, Yellow Egg, Early Danton, Broadshaw, Columbia, Champion, Golden Drop, Burbank Standard, Jefferson, Washington.
APEX—Early June. Shipping and market. One of the earliest plums. Medium size; light crimson, good flavor.
BEAUTY—Early June. Shipping and home orchard. The earliest Japanese plum, important commercial variety. Fruit medium size, heart shaped, and crimson. The flavor is good. Tree productive; self-fertile.

Plums

PLUMS—Continued
apricot flavor. Tree thrifty and attains large size. Requires pollination.
GIANT—August. Shipping. Fruit large and slightly necked. Light purplish red. Ships well; fine in quality. The best pollinizer for President.
GRAND DUKE—August. Shipping. A well-known European variety. Fruit large, oval, deep purple. Vigorous and productive.
HUNGARIAN (Fond)—August. Shipping. Large dark purplish red; slightly necked; very attractive quality. Quince variety.
IMPERIAL GAGE—Large, greenish, juicy and rich. Very productive. August.
KELSEY'S JAPAN—Late July-August. Shipping and home orchard. An excellent late Japanese variety. Fruit large, heart-shaped, and attractive when well colored. Ships well, and can be picked over a long period. Very good quality. Cross-pollination recommended.
***GREEN GAGE**—A medium small greenish yellow plum of high quality. Midseason.
***PEACH PLUM**—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.
PRESIDENT—Large egg-shaped fruits with a beautiful purple skin; flesh yellow and of fine texture; commercial shipping plum. September.
OMAHA—The very finest and most prolific "Iron Clad Plum." Most beautiful red, small pit, yellow flesh and supremely delicious both fresh and canned. Time for shipping across country.
GIANT SATSUMA—A wonderful new origination. Largest of all freestone shipping plums. Blood-red flesh as luscious as any ripe ox-heart cherry. A real money maker for shipping and fruit stands.
MAMMOTH GOLD—A very large golden yellow plum, overspread with bright carmine blush. A very hardy sort for heavy soils and thin dry slopes.
JEFFERSON—Finest of all yellow canning plums. Mid season. Used by commercial canners.

NEW PLUM SORTS OF MERIT
Avon, Triple, Oulins, Pearl at 50c each

The New Babcock Peach
Price same as Rio Oso Gem
The fruit is almost round, somewhat above medium size, and the color ranges from a beautiful pink to deep crimson. The skin is exceptionally smooth and is almost like a Nectarine in this respect. We highly recommend the Babcock either for home planting or as a profitable early market peach. Early June.
Commercial Sorts in Ripening Order: Victor, Mayflower, Alexander, Hales Early, Alton, Triumph, Crawford Special, Rochester, Early Columbia, Yellow St. John, Babcock, Carmen, Slappy, South Haven, Elberta Queen, Early Crawford, Charlotte, Foster, Early Imp. Elberta, Golden Elberta Cling, J. H. Hale, Rio Oso Gem, Indian Blood Cling, Fitzgerald, Champion, Tuscan Cling, Late Crawford, Elberta, Phillips Cling, Improved Muir, Palora Cling, Peak Cling, Phillips Cling, Lemon Cling, Orange Cling, Chinese Freestone, Lovell, Salway, Krummels Oct.

VICTOR—Earliest and most profitable of all early peaches. Large, earliest, red skinned, white meat peaches of excellent quality. Ships well.
ALEXANDER—One of the finest of the early peaches; greenish-white skin, shaded red; greenish-white flesh, very sweet and of good flavor.
MAYFLOWER—The earliest of all peaches. Medium sized, creamy white fruits, mottled with dark red, firm, white, juicy flesh.
HALES EARLY—One of the very best early white peaches. Greenish, splashed with red. Flesh white, juicy and sweet. Late June.
STRAWBERRY—One of the best and finest flavored peaches for home use. Small, white fruits, with beautiful red markings; flesh white, juicy, and delightfully flavored. A heavy bearer.
ALTON—Early white semi-Freestone; almost a Freestone when ripe; one of the hardest, surest bearers known; very large, white meat and most delicious fruit.
TRIUMPH — An extra early yellow fleshed peach. Skin very tender; juicy and sweet. July. Freestone.

ORIOLE—Newest, earliest, and most promising of all yellow meat freestone peaches for commercial shipping. Introduced by U. S. D. A.
CRAWFORD SPECIAL—Most wonderful of all early yellow meat freestone peaches. Ripens two weeks before Early Crawford. Almost 100% fuzzless, beautiful brilliant red markings. An immense bearer of excellent shipping and canning fruit. A real money maker. Comes before most Freestones can reach the market. Our own introduction.
PHILLIPS CLING—September. Commercial canning. Formerly the leading clingstone. Fruit of good size, with prominent neck; yellow, firm, clear yellow to pit. Can be picked over long period. Tree very productive.
SIMS CLING—Commercial canning. A late mid-summer cling; large size and productive. Nearly round; golden yellow, with faint blush. Fruit deep yellow to the pit; of fine texture. Fruit ripens from inside, and should be carefully handled.
RED BIRD—Commercial shipping. An early white flesh clingstone shipper. Fruit large, splashed with red, very attractive and aromatic.
ORANGE CLING—September. Home canning and shipping. Fruit very large, attractive. Flesh yellow and of good quality. Very productive.
MUIR—Late August. Drying. Fruit large to very large. Skin yellow, easily peeled. Flesh clear yellow to pit, tender, sweet and mild. A good bearer; resistant to Curd leaf.
SALWAY—September. Shipping, drying, and home orchard. Fruit large. Skin greenish yellow with blush. Flesh yellow, of fairly good quality.
LOVELL—Skin and flesh clear yellow; a heavy and regular bearer; commercial for canning and drying; good home fruit.
LEMON CLING—Large size, lemon color. One of the best market varieties, on account of its firmness, size and excellent qualities. September.

GOLDEN ELBERTA CLING—Quality superb, honey sweet juice and flesh—the most alluring quality of any clingstone—yet so firm, so solid, that it will ship almost any distance without breaking down. "The Finest Canning Peach in the World."
KRUMMEL—October. One of the latest freestone peaches and a profitable market variety. Fruit large, lemon yellow, lightly blushed with carmine; flesh yellow, red at the pit; of excellent quality.
<HOW ALL CARLTON TREES ARE GRADED>
The grades listed in this book refer to the approximate height of the trees and correspond to the following caliper sizes:

6 to 8 grade	11/16 inch and up caliper
4 to 6 grade	¾ inch and up caliper
3 to 4 grade	¾ inch and up caliper
2 to 3 grade	¾ inch and up caliper

PEACHES—Continued
YELLOW ST. JOHN—Fruit matures early. Color deep yellow, blushed and splashed with carmine.
ROCHESTER—Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow, freestone, good size, very sweet and fine flavor. Requires only best of the usual amount of sugar for canning. Does not rot on the trees.
CARMAN—A general favorite in nearly every peach region on this continent. It is a brilliant red.
SLAPPY—Fruit yellow, good keeper; excellent flavor, fine grained, rich. Hardy, best medium early yellow peach. Super-quality.
ELBERTA QUEEN—Same as Slappy peach.
CRAWFORD'S EARLY—Has all characteristics that gratify taste. Color, deep blushed and mottled with darker red and golden yellow. Flesh is beautiful and perfectly free from stone. Matures in mid-season. Vigorous and productive.
FOSTER—A Yellow Freestone of the Crawford type. Large, very attractive. Flesh fine grained, sweet, juicy, and delicious. Every home orchard should have this variety.
CHARLOTTE—An Improved Early Crawford, ripening three days later, much smoother and a heavier bearer. It is a rich yellow meat Freestone canning peach and bears very regular in the Northwest.
IMPROVED EARLY ELBERTA—This peach is the "Queen" of all canning peaches, and no doubt the biggest selling peach on the market. Fruit is a beautiful golden yellow, blending into a glorious deep pink on the sunny side; strong protecting skin; exceptionally heavy bearer and a wonderful pollinizer for the J. H. Hale. Ripens about two weeks earlier than Elberta. A truly super-quality canning peach.
FITZGERALD—Fruit large, brilliant color, sweet, juicy, and suffused with red; flesh deep yellow, best quality.

J. H. HALE—Peach growers have demonstrated during the past several years that this is a profitable variety. Fruit is of largest size, highly colored; flesh is yellow, exceedingly firm and yet tender when eaten; flavor is unexcelled. Fruit ship exceedingly well; ripens on the tree in a firm condition for a longer time than any other freestone.
EARLY ELBERTA — Ripens about a week earlier than Elberta; otherwise the same.
Canary Sort: Bartlett.
flesh yellow, firm, juicy, of high quality. Exceedingly prolific. Leading market variety.
GOLDEN JUBILEE—The wonderful new yellow freestone ripening three weeks before Elberta, which answers the long felt need for a good early yellow freestone. Flesh is firm and delightfully fragrant. By all means, include it in your orchard.
CHAMPION—Best of white freestone varieties. Skin creamy-white with red flush. Extremely hardy and of uniform good quality. Freestone, ripens 2 weeks later. EWART—Month later than Bartlett, large size and fine quality.

OTHER NEW SORTS—Tyson, Lucy Duke, Super Fine, Dana Home from N. Y. Station; Sheldon, Wilder, Vermont Beauty.
INDIAN BLOOD — Home use. A clingstone with deep red flesh. Popular for pickling and other culinary uses.
SOUTH HAVEN—A recent introduction. Immense size. Comes into market just before Elberta. Beautiful color and freestone. Very hardy and highly recommended.
PALORA CLING—Early August. Commercial canning. Almost identical to Peak, but a few days earlier. Fruit large; flesh clear yellow, with only trace of red at pit. Good flavor. Tree productive.
PEAR CLING — Early August. Commercial canning. A large yellow cling of good quality. Ripens few days after Palora, and is in favor with canners.

PHILLIPS CLING—September. Commercial canning. Formerly the leading clingstone. Fruit of good size, with prominent neck; yellow, firm, clear yellow to pit. Can be picked over long period. Tree very productive.
SIMS CLING—Commercial canning. A late mid-summer cling; large size and productive. Nearly round; golden yellow, with faint blush. Fruit deep yellow to the pit; of fine texture. Fruit ripens from inside, and should be carefully handled.
RED BIRD—Commercial shipping. An early white flesh clingstone shipper. Fruit large, splashed with red, very attractive and aromatic.
ORANGE CLING—September. Home canning and shipping. Fruit very large, attractive. Flesh yellow and of good quality. Very productive.
MUIR—Late August. Drying. Fruit large to very large. Skin yellow, easily peeled. Flesh clear yellow to pit, tender, sweet and mild. A good bearer; resistant to Curd leaf.
SALWAY—September. Shipping, drying, and home orchard. Fruit large. Skin greenish yellow with blush. Flesh yellow, of fairly good quality.
LOVELL—Skin and flesh clear yellow; a heavy and regular bearer; commercial for canning and drying; good home fruit.
LEMON CLING—Large size, lemon color. One of the best market varieties, on account of its firmness, size and excellent qualities. September.

GOLDEN ELBERTA CLING—Quality superb, honey sweet juice and flesh—the most alluring quality of any clingstone—yet so firm, so solid, that it will ship almost any distance without breaking down. "The Finest Canning Peach in the World."
KRUMMEL—October. One of the latest freestone peaches and a profitable market variety. Fruit large, lemon yellow, lightly blushed with carmine; flesh yellow, red at the pit; of excellent quality.

Nectarines

Each prices same as Peaches: 10 and 100 lots 5c additional.
In growth, habit, treatment and soils precisely similar to the peach. Valuable for dessert; smooth skin.
EARLY VIOLET. Medium size, skin yellowish green, with a purplish cheek. Flesh melting, rich and highly flavored. July.
BOSTON—Medium, deep yellow, with a bright blush and deep mottlings of red; flesh yellow without any red at the stone; sweet, though not rich, with a pleasant and peculiar flavor. Freestone.
NEW WHITE—Large, white with blush; good quality.
QUETTA—(Now, introduced by U. S. Department of Agriculture). Yellow meat and highly colored. Very hardy.
STANWICK—For many years has been a leading Nectarine. Extremely large fruit, the skin pale green, shaded purplish red; the flesh white and juicy, with a most delicious aromatic flavor. Early August.

Pears

The pear thrives over a wide range—being able to stand more summer heat than the apple. The French pear root also withstands heavy wet soils much better than most fruits. The popular Bartlett rules supreme as a summer pear, but some of our fall and winter varieties are even finer in quality and flavor, and all lovers of fine pears should include some of these in their home gardens. Unlike most other fruits

America's Best Selection Hardy Everblooming Roses

ROSES--Queen of Flowers

Here is the biggest bargain in America on Quality Rose Bushes. Guaranteed to bloom this year, and under favorable growing conditions, within a few weeks.

	Prices:	Each	Per Doz.
